Approval of Minutes of Meeting
The Minutes of Meeting dated May 9, 2016, were put before the Board. There were no questions or comments concerning the minutes, a motion for approval of the minutes was made by Council Member Touma, second made by Mr. Robins. The minutes were unanimously approved by voice vote (9 members).

Temporary Occupancy of 3625 Highland Avenue
Mr. Zucco stated there are three buildings on the Highland Avenue site. The agenda material distributed to the Board stated Sandstone Springs requests to lease one of the buildings. We are now talking about Sandstone leasing two of the buildings. The building that we will not lease is the one that housed the Science Museum.

Mr. Vilardo stated that we will be leasing an office/research and development building and the production building and will have an occupancy agreement for those buildings. The only building that won’t have an occupancy agreement for will be the first building when you come in from College Avenue, which still houses the remnants of the Niagara Science Museum. The 3625 Highland Avenue lease will be a three-year lease for the two buildings.

Mr. Zucco explained that the reason we are doing a lease is because we are going to keep title in Urban Renewal’s name and proceed with rehabilitation and remediation of the buildings.
There are grants available that a public agency can access. These grants can be used to clean up the site and help bring the buildings up to code completing any remediation that is necessary. The goal is that once we get everything up and running we can continue on a lease basis or we can sell the parcel to Sandstone. The lease will be $2.50 per sq. ft. Sandstone will indemnify the Agency and provide $1 million of liability insurance. In addition, Sandstone will insure the occupied buildings.

Mr. Hooper stated that he was concerned that the land would be polluted when they are finished with operations and we are left with environmental cleanup issues. He stated that he has seen that situation before. Mr. DeSantis stated that none of the materials that they are bringing onto the site are toxic materials and the Agency/City would see to it that that situation would not happen. Mr. DeSantis also stated that Sandstone ultimately wants to own the property.

**Referral to City Council of sale of 109 – 24th Street to Sandstone Springs, LLC**

Mr. Zucco stated that the final matter was the referral of the sale of 109 - 24th Street property to Sandstone Springs to City Council. The NFURA published the public notice of sale and we are now referring this matter to City Council. The City Council will have to do a public hearing and then act on the sale. This method of sale allows us to do a negotiated sale to the developer of the property. We will be following parallel tracts for both the 24th Street property and the lease of 3625 Highland Avenue.

Mr. Zucco noted that we will probably have one more special URA meeting and then we will be able to wind up both items at our regular July 18th Urban Renewal meeting.

Motion to approve the following Resolution concerning the Sale of 109 – 24th Street and referral to City Council for its approval, was made by Council Member Grandinetti, second made by Ms. O’Connor.
