1987 Easement Extinguishment:

Mr. Vilardo and Mr. Zucco reviewed the 1987 easement extinguishment item with the Board. The item was also outlined in the following distributed memo:

In 1987, in connection with the construction of the old Parking Ramp 1, the Agency granted to the City an easement on the “service road” that is located between the ramp (now parking lot) and the hotel. The easement also includes a strip of land on the west side of Third Street along the sidewalk in front of the hotel (now the Sheraton). A copy of the easement is attached for your convenient reference.

The City is in the process of selling a portion of the service road to the owners of the Sheraton, for construction of an indoor water park. The City is also in the process of dedicating the remaining portion of the property covered by the easement as public rights-of-way.

The easement parcel was conveyed to the City by the Agency. The easement may have been extinguished on the sale by the legal doctrine of “merger,” which holds that when a benefitted party obtains title to an easement parcel, the easement is extinguished.

Purchasers have requested that the easement be extinguished formally.

In any event, it is appropriate for the Agency to acknowledge formally that the easement may be extinguished. Will the Agency vote to extinguish the 1987 easement and to authorize the Chairman to execute any documents necessary to effectuate the same?

Motion to approve the 1987 Easement Extinguishment as outlined in the above memo distributed to the Board, was made by Ms. O’Connor, second made by Council Member Touma.

Update 3625 Highland Avenue Acquisition

Mr. Zucco stated that 3625 Highland Avenue was the property that the Agency acquired from Nick Dalacu. The idea was that Mr. Dalacu would lease part of the property back and operate his Niagara Science Museum. We have closed on the property and Mr. Dalacu has taken ill and will not be operating the science museum, he has basically abandoned his interest in it.

Mr. Zucco noted that we had hoped to have some rent coming back with which to pay some of our minor costs in connection with the building. We are not going to have the rent coming back and we will probably have some minor expenses for utilities. We also have some proposals for development on the site.

Mr. Vilardo stated that we have taken three potential investor clients through the property, one of which is very interested and would like to begin negotiating lease terms. Mayor Dyster stated that we have put in grant applications to do structural redevelopment of the
property. He stated that we are not through that process and we have already gotten interest. He
noted that we want to get work done on the property with grant monies prior to a long-term lease
or transfer of ownership of the property. The Mayor stated that we are also very concerned about
maintaining the science museum collection and we will be working with community not-for-
profit partners to catalog and make certain that we find a home for the science museum
collection. Mr. Delaqua has removed some of the collection.

Mr. Zucco stated that he would like to propose that URA approve to pay up to
$5,000 in costs that may be associated with the building at 3625 Highland Avenue such as utility
costs, general maintenance and security costs over the next year. These funds were not in the
URA budget and we would need approval for that.

Council Member Tompkins asked what was URA’s fund balance. Mr. Zucco stated that
the Agency has approximately $900,000 in fund balance.

After discussion a motion was made by Council Member Touma, second made by
Council Member Grandinetti to allocate up to $5,000 in URA funds for pay for costs related to
utilities and upkeep at 3625 Highland Avenue.
